FORMER BAVARIAN KING SHOWS INSANITY SIGNS

GENEVA, May 29. (By the Associated Press.)—The aged Ludwig, former king of Bavaria, is showing signs of insanity, which is hereditary in the former royal family. An expert in mental diseases arrived Tuesday at Zizers, near Coire, from Munich. The aged ex-monarch has been residing in Switzerland since the middle of last month.

Ludwig, during violent fits, declares that Bavaria won the war and says he wants to return to Munich in triumph, at the head of his victorious army.

SHELBY WILL GET DIG OUTSIDE SUM FOR ROAD SYSTEM

State and National Aid for Trunk Lines Permit Almost All County Tax to Go on Laterals and Dirt Roads.

The state highway commissioners assured Will Hale, Luther Jones and John Brown, county commissioners, Tuesday, that the \$12,000 due the county of Shelby from automobile taxes collected during 1917 and 1918, will be spent in the county, either by the state highway commission or by the county commission. This was very gratifying to the commissioners as the matter of getting hold of this fund has been a long and arduous task.

The new highway act is an amendment of the acts of 1913 and 1917 and it is proposed by the commission to bring a friendly suit in Davidson county to test the validity of the 1919 amendment creating the new highway bill. The suit is aimed at certain provisions of the act which are believed by some to render it unconstitutional. But whatever course is taken, Shelby will get the \$12,000 of automobile taxes, whether the act is declared unconstitutional or any provisions of previous acts are repealed, the highway commissioners assured Shelby county commissioners, Commissioner Hale says.

As to the part Shelby will get from the state and federal road fund, county commissioners said they had been assured by the highway board that it would recommend to the government that the larger counties such as Shelby, Hamilton and Davidson, put up two-thirds of the proposed one-mile tax, that the state put up one-sixth of the amount and that the federal government furnish three-eighths or half of the total. The government has agreed to give 50 per cent of the fund. The state will raise its part by a one-mile tax.

Available This Year.

Roth this tax and the automobile tax money will be available for work on the highways this year. There are three federal highways and six state highways, three of the state highways being the federal highways. The state, according to the highway commission, is to rebuild the bridge over Neshoba creek on the Jefferson highway, south of the city, damaged by the recent high water, without expense to the county.

The federal government, however, refuses to rebuild the Raleigh-Millington bridge, washed out during the same flood, and this again will have to be built by the county out of the county's budget for bridges and money derived from the automobile fund.

The federal road out of Memphis by North Second street to Park field, Millington, is to be made a permanent pike and is to be maintained out of the state and federal funds.

The three national highways upon which the federal money will be expended are the Memphis-to-Bristol highway, running by Raleigh, Bartlett, Ellis and Arlington; the Baghead highway on the Pigeon Roost road, running from Alabama, Arkansas, the Jefferson highway, coming into Memphis on the south from New Orleans on the Hernando road and going to Louisville, Ky., on the north, leaving Memphis via the North Second street road to Millington.

Auto Trucks Donated.

The highway commission also assured the county commissioners that Shelby county would get its proportion of the army trucks to be turned over by the government to the various states. Tennessee is to get 125 new Pierce-Arrow trucks and of these at least 15 or 20 will go to Shelby county for road work. These trucks are to be used only on federal roads.

Luther Jones, commissioner in charge of roads, believes the money that will be derived from the various funds will enable the commission not only to build and maintain the finest system of highways of any county in the south, but will leave a large part of the budget allowance to be expended in bringing up to a high standard the laterals and dirt roads.

Mr. Jones announced Wednesday that the dangerous sloughing on the Benjamine levee on either side of the Loosatchie river bridge will be repaired this summer and that at present danger signs cautioning drivers of autos and wagons to go slow and red lights are placed at either end of the dangerous parts of the levee.

TRACY CITY, Tenn., May 29.—Complaint to the home of Deputy Sheriff Brown shortly after 10 o'clock Wednesday morning James Myers coolly announced that he had killed John C. Campbell in a pistol duel some hours earlier.

The shooting quickly followed, Myers using two revolvers, and Campbell was shot to death. Myers was placed under arrest and carried to Alamo, scene of the killing. FRENCH FLYER MAKES NEW HEIGHT RECORD

PARIS, May 29.—Adjutant Casale, a French aviator, yesterday in a flight for altitude ascended 31,000 feet. This constitutes a world's record. Adjutant Casale during the war had numerous flights in the air and was credited with having downed 12 German machines.

The former altitude record in an airplane was made by Capt. Lang, of the British army, in January of the present year, when he flew to a height of 30,500 feet. Lang carried one passenger with him. Later it was reported that Lang had been arrested by order of the army authorities because he disclosed the details of his flight without having received authorization to do so.

School closes tomorrow and he leaves the principalship which he has held for 12 years.
